

Design Engineer

Florence Manufacturing, the leading manufacturer of postal specialty products and electronic collections, located in Manhattan, KS, is seeking to fill a full time position for a Design Engineer. The ideal candidate will have experience in:

- Experience designing, testing and implementing creative design solutions on electromechanical devices, in a team environment
- Experience with 3D Modeling Software such as Solid Works, ProE, or Auto Cad Inventor
- Ability to design new models and/or accessories for existing metal storage devices and electronic enclosures
- 3 + years Design Engineer experience
- Experience in a Metal Stamping/Light Assembly environment preferred

Come to work with a dynamic team of engineers, working on exciting projects in a growing, vibrant college town with great amenities for families and singles.

Benefits includes: health, dental, vision and life insurance, EAP, short-term and long-term disability, nine paid holidays and a 401k program

Please send your resumes to Florence Manufacturing via email to hr@auth-florence.com or fax at (785) 323-4474. Florence Manufacturing is an EOE and a drug free workplace
